A graduate of Dar es salaam University College of Education (DUCE) and a GATE Project beneficiary

#### *Introduction*

Lack of knowledge on gender issues among leaders and community members has led to the increase of Gender Based Violence (GBV) at Keko. Skills and knowledge obtained through Gender awareness and transformation through Education (GATE) enabled me to educate the community on the effects GBV.

#### *What I do*

As a chair person of Shujaa wa maendeleo na ustawi wa jamii campaign (SMAUJATA), I educate the community on effects of Gender based violence, how violence occur and where to report, by visiting schools to students and teachers, entrepreneur groups and youth associations

#### *Outcomes and recommendation*

Large group of people have become sensitive to gender issues  
Thus, great support is needed to the community especially in provision of education on gender based violence.
